

E. F. Johnson Reproduction Parts

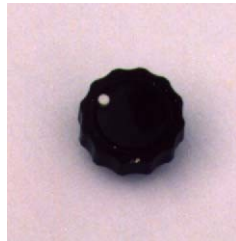

HC6/U style plug for connecting antenna relays to many Johnson transmitters including the Valiant and Ranger. These come with 24 inches of stranded "zip" cord for connection to the relay.

Price for the assembly: \$10.00 postpaid CONUS, \$12.00 US postpaid Canada, \$10.83 Texas residents

Replacement crystal hole "plug" for the Valiant, Ranger, etc. Normally available in Johnson "maroon", but can be provided in the gray color for the "II" series equipment on "special" order. These do not come with the small knob, but do have a "stud" which allows a "normal" small knob to be attached.

Price: \$15.00 postpaid CONUS, \$17.00 US postpaid Canada, \$16.24 Texas residents

Replacement "white pointers" for Johnson knobs. These are 0.125 inches in diameter and 0.250 inches long. Normally they will "force fit" into the knob. If necessary to "glue" them in, use a VERY small drop of "super glue" inserted into the hole.

Prices: \$2.00 each, 6 for \$10.00 postpaid CONUS. Canada add \$2.00 per order for postage. Texas add 8.25% sales tax
